## WE ARE MOVING FORWARD

We have often said, and we repeat, our entry into the newspaper field was purely an accident. Little did we ever dream that it would become a work of love. Since our acquisition of the Echo 8 years ago it has been our purpose to build our paper, in order to give our readers local news, in which they are interested and which does not appear in the dailies. We are trying to give them the news from the various sections of our Trade Area, and too, we have through our editorial comments worked to help build Hancock County, so that some day the youth of our County would not have to look to other sections of the country for a livelihood.

Our efforts have been rewarded and the response we have received from our people has, on many occasions, filled our hearts with joy. Eight years ago 600 copies of the Echo were printed and distributed, and on May 5th, 1950 we printed 2250 copies of the Echo which reached over 2150 families or approximately 8500 readers. Our readers have made this possible.

The three component parts which go to make a good newspaper, as we see it, are, first, the newspaper itself, which meets the requirements of the people it serves; second, its circulation; and third, its advertisers. Throughout the last eight years we have definitely tried to build a readers interest in our paper, and the increase in circulation, without solicitation, definitely shows that the Echo must be on the improve. One of the most important factors in the operation of a newspaper is its advertisers. They are the people who make its publication possible, and having devoted much effort to our readers interest, we thought that the time had arrived to try and better serve those who have been so kind and considerate throughout the years, giving us their advertisement which has made it possible for us to operate, when in our first years, frankly we do not think they were receiving their dollar value, in return.

To build a bigger circulation in the manner we have been following would be a slow procedure. In many instances it is necessary to contact people in order to get their subscription, and even with the services of a circulation manager this would take a great deal of time. In order to meet the situation and to add to our already greatly improved circulation, and to better serve our advertisers, we secured the services of the Line Circulation Service, who are presently carrying on our circulation contest.

In charge of this contest is Bill Gupton, a native Mississippian, who represents the Limer Service. He issued a general invitation to people throughout our trade area to enter our contest, and, in response, we have a real group of wide awake contestants, who are now actively engaged

## Hancock County C of C Host To Coast Council Bi-Monthly Meeting

The local Chamber of Commerce was host to the Gulf Coast Council at the regular bi-monthly meeting of the group held at the Reed Hotel, Wednesday night.

Representatives of the Chambers of Commerce of Pascagoula, Ocean Springs, Moss Point, Biloxi, Gulfport, Long Beach, Pass Christian, Picayune and Bay St. Louis, attended.

After a few remarks welcoming the group, Hardin Shattuck, President of the local Chamber of Commerce turned the meeting over to Council President, Eddie Khayat.

Among the many topics discussed, the one of primary interest to the local Chamber of Commerce was the location of the proposed bridge across the Bay. After a report on the recent action of the Hancock County Chamber of Commerce by Shattuck and a discussion of the matter, the Council, by unanimous vote, went on record as endorsing the action of the Hancock County Chamber of Commerce and the resolution presented to the Highway Commission and the Trustee.

Mr. Ezell, Manager of the Pascagoula-Moss Point Chamber of Commerce, invited those attending to attend the next regular meeting of the Council, the Pascagoula-Moss Point Chamber of Commerce being hosts.

The resolution previously passed by the Hancock County C. of C. and which has now been endorsed by the Gulf Coast Council is as follows:

### RESOLUTION

Whereas, on the 4th day of April, 1950, a meeting sponsored by the Chamber of Commerce of Hancock County, Mississippi, was held for the purpose of discussing the location of the proposed toll bridge over the Bay of St. Louis, at which meeting the various Civic and Fraternal Organizations of Hancock County were duly represented, and

Whereas, after a full discussion of the subject, it was the unanimous opinion of all the groups present that it would be to the best interest and welfare of the people of Hancock County that the proposed bridge be located adjacent to the present bridge over the Bay of St. Louis, and that the present location of the highway in Bay St. Louis, Mississippi, leading to the present bridge be retained, instead of moving the highway to another part of the city of Bay St. Louis; and

Whereas, in support of said opinion, the group offered the following reasons, to-wit:

(1) That many businesses have been built bordering the present highway running through the City of Bay St. Louis, and a change of the location would cause the owners to suffer financially, and would cause the City of Bay St. Louis to suffer a loss of taxation as a result of the decrease in the value of the property.

(2) That approximately 95 percent of the adjoining property owners along the present highway in Bay St. Louis have expressed a willingness to convey additional ground for right-of-way purposes in case the present location is retained.

(3) That if the present location is not used, any other location would necessitate the highway going through valuable beach property, which would be objectionable to any property through which it traversed, and to the adjoining property owners, since it would decrease the residential value of said property.

(4) That the approach to the present location of the bridge on the Bay St. Louis side, and adjoining land thereto, is one of the most elevated spots on the Bay St. Louis side, and the body of water traversed is one of the

narrowest points, thus making it possible to save the State of Mississippi approximately \$750,000.00 in actual bridge construction costs.

(5) That it would not be necessary to spend very much money for additional right-of-way purposes for land if the same location were utilized, but if a change is made in the location of the roadway, then it would necessitate a large expenditure of money for right-of-way purposes and road construction work.

(6) That the City of Bay St. Louis is primarily a resort town and not a commercial city, and desires the present location of the highway, rather than the routing of through traffic farther from the center of town.

That during the past three years the City of Bay St. Louis has suffered three serious set-backs causing much financial loss, property damage and loss of life; namely, the 1947 hurricane and two prolonged closings of the bridge over the Bay of St. Louis due to fire. It is believed that another blow, such as the moving of the bridge to another location, may prove disastrous.

Whereas, there were numerous other reasons given by the group assembled, but the above constitute the primary reasons, and it was unanimously agreed that an appeal be made to the State Highway Commission and the Hancock Bank, appointed as a Trustee of the bonds for the construction of a toll bridge, for the retention of the same location of U. S. Highway No. 90 through Bay St. Louis to the Bay of St. Louis, and that the future location of the new toll bridge to be constructed, be so constructed as to be adjacent to the same location of the present bridge.

Therefore, be it resolved that it is the unanimous opinion of all of the undersigned organizations that it is the desire of the members of said organizations that when the proposed toll bridge over the Bay of St. Louis is constructed, that it be so constructed in the same location as the present bridge, or as closely adjacent thereto as is possible, and that the location of Highway 90 passing through the City of Bay St. Louis to said bridge be retained in its present location.

Be it further resolved that a copy of this resolution be furnished to the State Highway Commission and the Hancock Bank, Trustee.

Aviation Cadet Manuel R. Richardson, of Bay St. Louis, Mississippi, is reporting to Reese Air Force Base, Lubbock, Texas, where he will receive six months of training in a combat type airplane before being commissioned a second lieutenant and pilot in the United States Air Force.

**COMPLETE PRELIMINARIES**  
According to an announcement from Major General Robert W. Harper, Commanding General, Air Training Command, who directs all Air Force training from his headquarters at Scott Air Force Base, Illinois, Richardson has already completed seven months of basic pilot training at Perrin where he flew the 550 horsepower Air Force Base, Sherman, Texas, T-6 Texan training plane.

Richardson has taken all of his flying training up to this point in the T-6, a single engine low wing airplane which was designed as an advanced trainer.

### PILOTS SELECTED

The former three phase system of pilot training has been abandoned under the new streamlined Air Force pilot training program. The Air Force has found that the men who fly its 500 mile an hour fighters and giant bombers and transports can learn the basic principles of flying on the more complicated T-6 without the use of the comparatively simple trainers which were used in prewar pilot training. During their basic training cadets are selected for advanced training on the combat type airplane for which they show the greatest aptitude while flying the T-6.

The advanced flying schools use the B-25 "Mitchell" bomber which was used on the Doolittle raid on Tokyo, the F-51 "Mustang" number high speed fighter of World War II, and the famous P-50 jet fighter, the "Shooting Star".

## 4-H Camp To Be At Lake Waukaway

The Hancock County 4-H Club Camp will be held at Lake Waukaway, 22 miles above Laurel, June 5th through 8th.

For four action-packed days these Hancock County 4-H Club members whose ages will range from 10 to 21 will participate in a well planned recreational and educational program which will include everything from swimming and boating to periods of instruction in leadership and forestry. The recreation program is so planned that there is at least one sport to suit the taste of every boy and girl. Swimming is by far the most popular recreation, but, in addition to this sport, games such as softball, horseshoes, volleyball and tug-of-war will also be on the list.

### NIGHTLY MOVIE

Highlighting the night program will be the nightly movie followed by square and folk dancing. Usually a fast game of water polo concludes the activities of the day.

The camp will be under the supervision of Howard F. Simmons, Hancock County Agricultural Agent and Miss Madge Allred, Home Demonstration Agent, assisted by one or more leaders. In commenting on the camp Mr. Simmons said that one of the most important things accomplished by a 4-H Club Camp of this type is that it gives rural boys and girls a vacation and provides them with an opportunity to work and play together within their own groups. In addition, a camp like this fosters a closer relationship among the participating groups which helps to form a better rural community.

### DEVELOPS SPIRIT

Miss Allred stated that a camp like this also helps to develop a competitive spirit, so necessary in this modern age and that all activities will be conducted on a competitive basis.

In charge of the preparation of the vast amount of food consumed by the always-hungry campers will be Mrs. Howard Allen, wife of the owner of Lake Waukaway.

**"NATURE'S PLAYGROUND"**  
Lake Waukaway, scene of the 4-H Club camp, is one of the finest privately-owned camps of its kind in South Mississippi. Popularly known as "Nature's Playground," it has been owned and operated for the past 17 years by Howard Allen. Mr. Allen is assisted in his work by his wife, a public health nurse, and by a staff of life guards, trained by the American Red Cross.

The lake and camp area cover 148 acres of land. The swimming pool, which is fed by nine springs, occupies some two-and-a-half acres; though it has no concrete bottom, the pool remains clear 24 hours a day. An estimated 35,000 gallons of water pour through it each hour, and a mean

temperature of 70 degrees is maintained at all times.

To control the temperature, there is a spillway at one end of the pool which allows only so much water to flow in at a time. As the water passes over the spillway, it absorbs heat from the sun and air. If the temperature rises too high, the spillway is opened from the bottom, allowing cold water to run in until the proper temperature is restored.

Since water does not release its heat rapidly, the pool usually remains warm until late at night.

According to Mr. Allen this is the only natural swimming pool in the country that employs this method of temperature control.

### RED CROSS APPROVED

Both the swimming pool and the camp are approved by the American Red Cross. Life guards are on duty at all times, and during the history of 4-H Club Camps held at Lake Waukaway there has never been a fatal accident.

In addition to his regular duties of manager of Lake Waukaway, Mr. Allen instructs the 4-H campers in swimming and life saving. He also conducts demonstrations in what to do—and what not to do—when a boat is overturned.

The 4-H Club Camp in 1948 was held at Lake Waukaway with 45 boys and girls attending. This was the first 4-H Club Camp Hancock County had had since 1940. The 1949 County-wide club camp was to be held at Waukaway but was cancelled due to the outbreak of polio.

## Scouts Hold Camporee In Pass

A camporee of nineteen scout troops was held at the Pass Christian Scout camp on Col. Dayton L. Robinson's property on May 20th and 21st. Scouts from the Bay-Pass, Bill Kennedy and New Orleans districts were present.

Contests were held and points awarded in knot tying, tent striking, string burning, tent pitching and rope climbing. Points were also awarded for camp inspection and camp fire skits with Pass Christian and Bay St. Louis troops taking first award in all competitive activities.

The Boy Scouts enjoyed a full time program, beginning at 8 o'clock Saturday morning and lasting until 2:30 Sunday afternoon, which consisted of regular camping activities and a parade in Bay St. Louis and Pass Christian which was led by the city police officers of both cities.

One of the outstanding features of the Camporee was the activities of the mothers of some of the Scouts from the Bill Kennedy district.

Much of the success of the

Camporee was due to the efforts put forth by Col. Dayton Robinson. The Pass Christian Lions club and the Rotary, sponsors of Troops 216 and 215, also helped to make the outing a success.

Joe Whitman, state patrolman, escorted the troops from Pearlton, where he met them at the bridge, to Bay St. Louis. Gerald Villars, Field Executive, who attended the camporee from New Orleans, wrote Col. Robinson and said, "I'm quite proud of the Bay Pass District. You'll notice that we had one hundred per cent participation from our district. That's something we've never had before. Then, too, look at the effort each of our troops turned in. Troops 215, 216 and 217 received "A" ribbons while troop 208 earned a "B" ribbon. Troop 208 was just reorganized, has a new scoutmaster, just re-registered, but still made an excellent showing. The same can be said of Troop 215." Also attending from New Orleans were Mr. Harry Maxfield, chief executive of the New Orleans area and Tom Little, Camp Director.

## Plan County Livestock Show for Fall of 1951

At a meeting of the Hancock County Livestock Association held Friday, May 19, it was decided that the County would put off having a show this fall. They voted that this year they would sign boys who are members of the 4-H and F. F. A. clubs who would have products to exhibit, and get one underway for the fall of 1951.

J. M. Dean, Executive secretary of the Mississippi Agricultural and Industrial Exposition, Jackson, Mississippi, was the speaker.

### LEGISLATIVE INTEREST

The speaker, who was County

agent in Monroe County in 1908, told the group that livestock in the state was only valued at \$30 million then; it has now increased to 175 million. That increase caused the Mississippi Legislature to take interest in this product and create funds for its advancement. The 1946 Legislature created the Mississippi Agricultural and Industrial Exposition with a commission appointed by the Governor to handle funds. The commission in turn appoints the Executive secretary.

### ANNUAL UNIT BASIS

Funds for the livestock shows are given out on an annual unit basis, which is determined by the number of animals exhibited at previous shows. A new County is given the minimum number of units and money on that basis for the first year; then officers of the Livestock Show must certify that the County can get \$500 to match state money.

Livestock shows can be held any time during the fiscal year. Mr. Dean said, but most shows are given in the spring and fall. In order to have an event of this type, it is necessary that adequate buildings, tents or other cover for exhibits are provided.

### CANNOT EXCEED \$1000

In outlining the process used in giving a show, the speaker said that the show and premium list must be certified by county show officials to the Mississippi Agricultural and Industrial Exposition within 30 days after date of show. No County can exceed \$1000 per year of State funds regardless of amount of premiums paid.

A Mississippi State Fair, Mr. Dean added, costs about \$60,000 to put on. Money for this comes from carnivals, rented space to agricultural implement dealers, concessions and individual stands.

### NOTICE TO BIDDERS

Notice is hereby given that the Board of Trustees of Gulfview Consolidated School, Hancock County, will receive sealed bids to be filed in the Office of the Superintendent of Education before 10:00 A. M. on Saturday, June 10th, 1950, for the purpose of repairing the old cafeteria building.

## WHAT IS A CLUB?

A "Club" of subscriptions in the big "Everybody Wins" prize contest is any group of subscriptions totaling \$18.00.

For example, nine yearly subscriptions at the regular rate of \$2.00 would constitute an \$18.00 "club" on which 50,000 EXTRA votes are given toward winning the big prizes in addition to the regular schedule of votes on each individual subscription. Such a combination counts for 77,000 votes altogether.

Two 5-year subscriptions amount to an even \$18.00, likewise constitute a "club" and as 25,000 regular votes are issued on each "full limit" subscription—plus the 50,000 extra votes due on a "club," this counts for exactly 100,000 total votes.

Those who make it their aim to obtain "one club a day" will undoubtedly be among the winners of the biggest and best prizes.

It attempts to show that our scheme of government has not outworn its usefulness; that all a democracy needs is an intelligent citizenry and a clean, honest and impartial administration responsive to the will of the people. The entire program is non-partisan and is not military in any sense. Problems will be considered without reference to any existing political party and will be free from propaganda.

## R. E. A. Celebrates Fifteenth Anniversary

National and state leaders today, May 26, will commemorate Mississippi's 15 years of home-owned, home-operated electric power development in a colorful Progress Day ceremony in Jackson.

Clyde T. Ellis, executive manager of the National Rural Electric Cooperative Association, is a guest speaker in addition to other prominent civic and business representatives. The meeting is a morning and afternoon affair held in the Hotel Heidelberg, H. L. Pickering, chairman of Public Power Progress Day, said.

Joined together for the session are the 25 rural electric associations of the state and municipal-owned systems. In all, these systems serve more than 1,000,000 Mississippians.

In charge of Progress Day are Mr. Pickering; R. V. Taylor of Philadelphia; W. H. Saston of Batesville; H. H. Shattuck of Bay St. Louis; Mr. Wise; L. C. Spencer, Jr. of Greenwood and T. D. Davis, manager of Mississippi Services.

## Your State Health Officer Says

Editor's Note: This is the second in a series of three articles on heart disease presented by the Mississippi State Board of Health.

In continuing the discussion of high blood pressure, it may be stated that the elevation in pressure is brought about by a narrowing of the passageway for the blood in the arterioles, resulting in the rise of resistance to the flow of blood. In some instances, such as certain diseases of the kidneys or a tumor of the adrenal gland, the pressure is a clearly demonstrated factor, stemming from the diseased condition. In the vast majority of cases, however, there is no discoverable cause to explain the increased pressure. Doctors call this condition primary or essential hypertension.

### WEARS OUT

In order to keep the blood flowing at a normal rate against increased resistance, the heart must perform extra work, as a result of which—like any muscle—it enlarges. This increased resistance, if not overcome or controlled, causes the heart and arteries to wear out prematurely. Cerebral thrombosis or hemorrhage, congestive heart failure or coronary thrombosis are frequently the end of long, unabated pressure.

There are many people who suffer from high blood pressure. It would be conducive to heart disease control if all of our citizens had a working knowledge of the danger signals just as they have been taught the symptoms of cancer, tuberculosis and other diseases. It is regrettable that no organized effort has been made in Mississippi to educate our people

in heart diseases, their prevention and control. We propose to undertake this as a Statewide program on an intensive basis. There is much the health department can do with the support of the medical men of the State which we already have pledged to us. The State Health Department, county health departments, and the physicians year by year will work hard to educate the people and to further educate many physicians in diseases of the heart (cardiology).

### RED CROSS

The regular annual meeting of the Hancock County Chapter of the American Red Cross will be held at the Courthouse on Wednesday morning, June 7, 1950 at 10 o'clock.

## Another Outstanding Girl Athlete N. C. C. W. Meets May 10

Gloria Lacoste of Kiln, Miss., is just one of a family of many who likes sports. A number of her brothers were on the Kiln boxing team this year, and one, David Lacoste, won the state boxing championship.

In the recent Hancock County Field meet, Gloria, not to be outdone by the brothers, won the individual trophy for scoring the most points in the girls' high school division. She won first place in the 75 yard dash; first place in throwing the ball a distance of 138 feet; second place in broad jumping—she jumped a distance of 13 feet, 10 inches; and she was a member of the relay team which won second place. In all, Gloria got a total of 23 points.

Last year, Gloria totaled 15 points in all the events; the trophy winner for that year won by a total of 18 points.

During the basketball season Gloria was a star guard on the Kiln girls' team; in the tournaments at Industrial, McNeil and Bay St. Louis, she was on the all-tournament teams. Gloria did not start playing basketball until she was a freshman in high school, and has only played for two years. She was put on the varsity squad after she had practiced for only a week or two.

If Gloria has achieved honors in just two years of active participation in sports, think of what she will do by the time of her

graduation, she may even become a challenge to the boys in their divisions of sports.
